

Are Field Trips Safe?

Have you been to a field trip before?

A **field trip or excursion**, known as **school trip** in the UK, New Zealand, Philippines and **school tour** in Ireland, is a journey by a group of people to a place away from their normal environment. The purpose of the trip is usually **observation for education**, non-experimental **research** or to provide students with experiences outside their everyday activities, such as going camping with teachers and their classmates. The aim of this research is to observe the subject in its natural state and possibly collect samples.

Field trips offer an opportunity for students to get exposure to "real" people and events and the opportunity to make connections with others. Students on field trips visit people and places that they are not normally exposed to during the school day.

You can see the whole lesson from your teacher, please ask them to send it to you before the class.
