Dog Ate 43.5 Socks

An annual veterinarian's x-ray contest called They Ate WHAT?! awarded third prize to a (1) _____ from Portland, Oregon. Back in February, veterinarians removed 43.5 socks from the dog that had been experiencing digestive problems. The owners knew that the dog enjoyed (2) _____ socks, but didn't realize it was also swallowing some whole. First prize went to an exotic frog that ate 30 ornamental rocks. (3) _____ went to a German pointer that ate a shish kabob skewer. All of the animals (4) _____ after having the foreign bodies removed. Veterinary Practice News (5) _____ the contest since 2006. Cash prizes are awarded to the animal clinics where the winners received their treatment.

Comprehension Questions

1. Which animal won third prize and why?
2. What did the frog eat?
3. Who receives the cash prizes in this annual x-ray contest?
