

Car-aoke

Is there a lot of traffic in your town? Are the roads busy? Do you feel bored or angry while you sit in a long line of cars? Then a great, new car from China can help! It is called Geely Beauty Leopard. The car comes with a karaoke machine. You and your passengers can sing your favorite pop songs while you wait in traffic or a trip. You will feel much better! The car has a GPS system too so you will never get lost. The car costs about \$18,000. Be careful when you sing and drive at the same time. It can be dangerous. Watch the road to avoid road accidents.
