

## Hooking Up My Computer

### *Computer Related Verbs*

to update	to unplug	to install	to hook up
to disconnect	to boot up	to paste	to copy
to surf	to browse		

**Peter:** Hi Jack. Can you give me a hand?

**Jack:** Sure. what's up?

**Peter:** I've just bought a new computer and I'm having some problems hooking everything up.

**Jack:** ... and I'm a geek. Yeah, I know. I'd be happy to help.

**Peter:** Thanks! I've connected all the cables from my monitor, mouse and keyboard, and I've plugged it in.

**Jack:** Have you installed the software yet?

**Peter:** No, I haven't. Do I need to?

**Jack:** Not always, but it's best to install drivers for your keyboard and mouse, as well as your printer.

**Peter:** Will the computer boot up without those?

**Jack:** Of course. Boot up the computer and then we can update the drives.

**Peter:** OK. What's that thing (points to a computer component)

**Jack:** Oh, that's a memory reader. You can insert things like SD cards from your camera and mp3 players into it.

**Peter:** That's handy.

**Jack:** You've bought a nice system. How big is the hard drive?

**Peter:** I think it's 750 gigabyte.

**Jack:** Good... The computer's booted up. Let's install those drivers.

**Peter:** Before we do that, can I get online?

**Jack:** Do you have a modem?

**Peter:** Yes, I do. I think I have a cable modem.

**Jack:** hmmm... yes you do. Is the Ethernet cable plugged in?
