# Advance Level

Module 3
Presentations

Presentations: Language Expert

Introduction

A good way to make your presentations effective, interesting and easy to follow is to use signpost language. 'Signpost language' is the words and phrases that people use to tell the listener what has just happened, and what is going to happen next.

In other words, signpost language guides the listener through the presentation. A good presenter will usually use a lot of signpost language, so it is a good idea to learn a few of the common phrases, even if you spend more time listening to presentations than giving them! Signpost language is usually fairly informal, so it is relatively easy to understand.
