

## Plastic to Outweigh Fish in Oceans by 2050

---

Vocabulary:

**functionality** (noun) = the quality of being very suitable for the purpose it was designed for

ex. The functionality of the Swiss Army Knife has been proven time and time again.

**pace** (noun) = the rate of speed at which something happens

ex. The pace at which technology is advancing these days is incredible!

**clog** (verb) = to block something or to become blocked

ex. The pipe is clogged and so the water from the kitchen sink won't drain.

**systematically** (adverb) = in a thorough, efficient or determined way that follows a system or plan

ex. We have analyzed the data systematically and we will present our results during the conference next week.

**outweigh** (verb) = be greater or more significant than

ex. Bob outweighed him by more than twenty-five pounds.
