

"Dress Down" Days

Reading

Spielberg, being Spielberg, can dress as he pleases. But that's the point: Americans used to want to dress up. Wearing a suit was a privilege of adulthood; Spielberg's outfit looks like something his mother might have dressed him in, in fourth grade.

"Dress down" days, a phrase that first appeared in print barely five years ago, now affect, by some estimates, more than half of all U.S. office workers. Major banks, law firms and major companies lift the burden of neckties and nylons on employees in honor of the impending weekend; so does the Central Intelligence Agency.
