Reading

A Scottish University has announced a world first in the field of elite academic achievement. It is offering a masters degree course in computer games software engineering.

The University of Abertay in Dundee says it could put the city at the centre of a multi-million pound industry. Over £45bn will be spent on computer software in Europe this year, with the games market making up a substantial share.

The course leader, John Sutherland says he hopes that people will see that computer games are about people as well as machines.

"Students will have to learn about how people see, feel and hear to be successful in this environment" he said.

You can see the whole lesson from your teacher,please ask them to send it to you before the class.
